He has achieved success who has lived well, laughed often and loved much;
 who has enjoyed the trust of pure women, the respect of intelligent men and the love of little
 children;
 who has filled his niche and accomplished his task;
 who has left the world better than he found it, whether by an improved poppy, a perfect poem,
 or a rescued soul;
 who has never lacked appreciation of earth's beauty or failed to express it;
 who has always looked for the best in others and given them the best he had;
 whose life was an inspiration;
 whose memory a benediction.

Bessie Anderson

"FOR ALL THOSE BORN BEFORE 1945"

AUTHOR UNKNOWN

WE ARE THE SURVIVORS!!! Consider the changes we have witnessed:

We were born before television, before penicillin, before polio shots, frozen foods, Xerox, plastic, contact lenses, frisbees and the pill.

We were before radar, credit cards, split atoms, laser beams and ballpoint pens, before pantyhose, dishwashers, clothes dryers, electric blankets, air conditioners, drip-dry clothes, and before anyone walked on the moon.

We got married first and then lived together. How quaint can you be?

In our time, closets were for clothes, not for **coming out of**. Bunnies were small rabbits and rabbits were not Volkswagens. Designer Jeans were scheming girls named Jean or Jeanne, and having a meaningful relationship meant getting along well with our cousins.

We thought fast food was what you ate during Lent, and Outer Space was the back of the Riviera Theater.

We were before house-husbands, gay rights, computer dating, dual careers and commuter marriages. We were before day-care centers, group therapy and nursing homes. We never heard of FM radio, tape decks, electric typewriters, artificial hearts, word processors, yogurt, and guys wearing earrings. For us, time-sharing meant togetherness—not computers or condominiums; a **chip** meant a piece of wood; hardware meant hardware, and software wasn't even a word.

In 1940, **made in Japan** meant junk and the term **making out** referred to how you did on your exam. Pizzas, McDonald's, and instant coffee were unheard of.

We hit the scene when there were 5 and 10 cent stores, where you bought things for five and ten cents. Sanders and Wilson sold ice cream cones for a nickel or a dime. For one nickel you could ride a street car, make a phone call, buy a Pepsi or enough stamps to mail one letter and two post cards. You could buy a new Chevy Coupe for \$600, but who could afford one? A pity, too, for gas was 11 cents a gallon.

In our day, cigarette smoking was fashionable. Grass was mowed. Coke was a cold drink and pot was something you cooked in. Rock music was grandma's lullaby and aids were helpers in the principal's office.

We were certainly not before the diffence between the sexes was discovered, but we were surely before the sex change. We made do with what we had. And we were the last generation that was so dumb as to think you need a husband to have a baby!

No wonder we are so confused and there is such a generation gap today!

BUT WE SURVIVED!!! What better reason to celebrate?

HAVE A NICE DINNER!

EPILOGUE

Your resumes have been a joy to read. From them we know that the East High Class of 1944 was made up of DOERS.

Some of us served in the Military—several making the Military a career. Others have worked diligently in trades, business and professions. And to those who have chosen to be homemakers and to raise families that are a credit to their communities and country, we and society thank you.

We have had our “ups” and our “downs” but the ups have far outweighed the downs. It has been a wonderful life.

Some of our classmates have walked through the doorway to a better life. We miss them very much and hope to be able to associate with them again.

And so...good friends...thanks for the memories. May God bless each of you with health and happiness this day and always.

Sincerely,

Lois Pixton Park and Cal Robinson
